Print two templates. Separate heel and toe unit templates with scissors so you have long centerlines to match to centerline on ski.

Locate front and rear on ski using this distance between screw center lines per arrows above and below this box:
- Small binding: 265 mm
- Large binding: 305 mm

(verify heel-toe spacing by dry fitting binding on ski.)

Recommendations and diagrams suggested here are opinions only, author takes no responsibility for, nor makes any warranty that the suggested templates conform to manufacturer specifications, or would conform to the requirements of skiers, or to the varied terrain skiers choose to ski. Use at your own risk. No warranty, expressed or implied.
